PRESS RELEASE

NOTICE OF SPECIAL TOWNSHIP COMMITTEE MEETING

FOR

PENNEAST PIPELINE

PennEast Pipeline Company representatives will make a presentation on a proposed natural gas pipeline at 7pm on Tuesday September 23, 2014 in the Performing Arts Center of the Hopewell Valley Regional High School located on Pennington Titusville Road.   This meeting will be a Special Township Committee meeting to inform the public on this proposal.

In late July/early August, Hopewell Township and many area residents were contacted by representatives from PennEast Pipeline Company regarding an underground gas pipeline. Based upon information provided, PennEast Pipeline Company is evaluating the feasibility of constructing an underground natural gas pipeline which will bisect Hopewell Township. The pipeline route through Hopewell Township may be found on page 2 of the map provided by PennEast Pipeline Company on the Township's website which also includes all information received from PennEast Pipeline Company to date. http://www.hopewelltwp.org/penn_east.html .

The PennEast Pipeline Company, LLC was formed by UGI Energy Services, in partnership with AGL Resources, NJR Energy Services and South Jersey
Industries. UGI Energy Services, LLC is a natural gas marketing and infrastructure company that builds, operates and maintains natural gas pipelines and facilities throughout Pennsylvania.   This proposed pipeline is intended to deliver natural gas from northeast Pennsylvania to other markets in Pennsylvania and New Jersey.

This proposal is regulated by the Federal Energy Regulatory Commission, or FERC. FERC is an independent agency that regulates the interstate transmission of electricity, natural gas, and oil. FERC also reviews proposals to build liquefied natural gas (LNG) terminals and interstate natural gas pipelines as well as licensing hydropower projects.

All interested residents are encouraged to attend and bring your questions. The meeting will be video recorded and uploaded to the Township website following the meeting.
