# THE COOL KID ON THE BLOCK

*Our players and coaches are extremely satisfied with the FieldTurf CORE product and CoolPlay infield system. The outstanding playing surface allows the student athletes to compete on the best turf in the country. The field plays like a well manicured grass field, with consistency, durability, speed and safety. The new surface has enhanced the student-athlete experience, and we are very pleased with the overall performance."*

**AMANDA DEMARTINO**

EXECUTIVE DIRECTOR OF ATHLETICS, THE COLLEGE OF NEW JERSEY

*"Because of the heat-absorbing benefits of CoolPlay, we were able to practice on a number of days over the summer where we most likely would not have with other types of infill (and certainly not with our old turf). I was unaware of the WBGT testing / monitoring (Wet Bulb Globe Temperature) that we are required to frequently do to ensure adequate safety for players and coaches. Because of the benefits of CoolPlay infill, the conditions on the field allowed us to safely practice on a number of days where it would have been deemed unsafe on other turf fields. So besides better comfort and overall safety, the CoolPlay infill provided us with a competitive advantage to allow us to safely practice on days where other schools (on lower grade turf or grass fields) would have had to cancel practice."*

**SCOTT HIRSCHMUGL**

DIRECTOR OF FINANCE & OPERATIONS, BERGEN CATHOLIC HIGH SCHOOL

*"We reached out to schools that have installed the CoolPlay technology that FieldTurf offers. The feedback we received from coaches and administrators was extremely positive in regard to the benefits that contribute to player safety and a cooler surface during the summer months."*

**JARED MOSLEY**

ASSOCIATE VICE PRESIDENT OF ATHLETICS, UNIVERSITY OF NORTH TEXAS

*"You can really feel the difference CoolPlay makes. We've installed the system on two of our fields already with plans of installing it on at least five more. Choosing CoolPlay is an easy decision for our school district. It delivers performance, safety and cooling for our student-athletes."*

**DR. STEVEN CRAFT**

ATHLETICS DIRECTOR, FULTON COUNTY SCHOOLS
