### Chemical Curiosities

July 13 - 17

Become a creative chemist through the investigation of the period table And the atoms that make up everything around us! Learn about chemical reactions as you grow crystals. We will experiment oxidizing metals with different chemicals to see how rusty they get, design chromatography bandanna to take home, and even make our very own ice cream!

### Secret Agent Lab: Spies Like Us

July 20 - 24

Become s super spy and learn clever ways of performing tasks in this hands-on view of the science that spies use. Go on secret missions to find enemy spies and receive your very own pair of spyglasses. From decoding messages to secret safes and lasers, you will have the opportunity to check out spy equipment, and discover the technological tools of detection!

### Jr. Physicians Academy

July 27 - 31

Explore all of the cells, organs, muscles, and bones that make up YOU! Put yourself together from the inside out, while learning about all the systems that make your body tick! Get microscopic while making a model cell and inflatable lungs and then get a little sticky while making Mad Mucuc and a mashed potato brain!

### Underground Explorers

August 3 - 7

From Dinosaurs to Ancient Civilizations! Learn about archeology and the techniques scientists use to excavate long lost cities. Discover ancient civilizations and the tools and artifacts they used in everyday life. Study bone fragments, pottery shards, amber deposits, and fossils to understand what they can tell us about history. Make incredible projects to take home, like an amber time capsule and antique coins from around the worlds!
