**Hopewell Township Health Department
welcomes representatives from the NJ DEP**

PFAS Information Meeting

Tuesday, August 23, 6:30pm, virtually via Microsoft Teams

Registration and questions:

www.HopewellTwp.org/PFASmeeting

The Hopewell Township Health Department is pleased to welcome staff from the New Jersey Department of Environmental Protection (NJDEP) for an informational session about Per- and Polyfluoroalkyl Substances (PFAS), also known as "forever chemicals."

The meeting will cover an overview of what PFAS compounds are, how sampling for these chemical compounds is occurring, and what resources may be available to residents with drinking water contamination.

In order to attend, please use the meeting registration link to RSVP. Feel free to indicate any specific questions you may have for the NJDEP or Municipal officials in the meeting registration survey (please have questions in by August 9th).
